

Social Work Internship Program

Through Her Justice's Social Work Internship Program, students gain supervised, trauma-informed practice experience while supporting clients navigating the civil legal system.

Interns work alongside the Her Justice team, gaining firsthand experience in nonprofit legal services while helping clients navigate legal processes and connect with resources and support.

Her Justice works with schools across the New York City area and offers a small number of social work internships each year.

For information about available opportunities and how to apply, please contact your school's field instruction department.

The internship *experience*

I was an intern at Her Justice for the summer and the opportunity to be able to work with such talented and passionate legal staff was priceless. The legal staff consistently strove to provide the best services for their clients. It was incredible to be able to see the impact of the legal work done here on the lives of countless women in New York. Her Justice is a phenomenal community to be a part of.
